according to the Hazardous Products Regulations

Tricaine Mesylate

Version	Revision Date:	SDS Number:	Date of last issue: 09/30/2023
3.2	09/28/2024	4834821-00011	Date of first issue: 09/10/2019

SECTION 1. IDENTIFICATION

Product name : Tricaine Mesyl
Product code:3-EthoxycarboOther means of identification:No data availa

Manufacturer or supplier's details

E-mail address	:	EHSDATASTEWARD@merck.com
Emergency telephone		1-908-423-6000
Telephone	:	908-740-4000
		Rahway, New Jersey U.S.A. 07065
Address	:	126 E. Lincoln Avenue
Company name of supplier	:	Merck & Co., Inc

Recommended use of the chemical and restrictions on use

Recommended use	:	Veterinary product
Restrictions on use	:	Not applicable

SECTION 2. HAZARDS IDENTIFICATION

GHS classification in accordance with the Hazardous Products Regulations

Not a hazardous substance or mixture.

GHS label elements

No hazard pictogram, no signal word, no hazard statement(s), no precautionary statement(s) required.

Other hazards

Dust contact with the eyes can lead to mechanical irritation. Contact with dust can cause mechanical irritation or drying of the skin. May form explosive dust-air mixture during processing, handling or other means.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture Substance name		Substance 3-Ethoxycarbonylanilinium methanesulphonate
CAS-No.	:	886-86-2
Common Name/Synonym	:	No data available

Components

	Common Name/Synonym	CAS-No.	Concentration (% w/w)
3-	No data availa-	886-86-2	
Ethoxycarbonylanilini-	ble		>= 80 - <= 100 *
um methanesulphonate			

^{*} Actual concentration or concentration range is withheld as a trade secret

SECTION 4. FIRST AID MEASURES

according to the Hazardous Products Regulations

Tricaine Mesylate

Version 3.2	Revision Date: 09/28/2024	SDS Number: 4834821-00011	Date of last issue: 09/30/2023 Date of first issue: 09/10/2019				
General advice		advice immed When symptor	In the case of accident or if you feel unwell, seek medical advice immediately. When symptoms persist or in all cases of doubt seek medical				
lf inha	aled	: If inhaled, rem	advice. If inhaled, remove to fresh air. Get medical attention if symptoms occur.				
In case of skin contact		: Wash with wa	Wash with water and soap. Get medical attention if symptoms occur.				
In case of eye contact		: If in eyes, rins	If in eyes, rinse well with water. Get medical attention if irritation develops and persists.				
If swallowed		: If swallowed, I Get medical a	If swallowed, DO NOT induce vomiting. Get medical attention if symptoms occur. Rinse mouth thoroughly with water.				
and e delay Prote	Most important symptoms and effects, both acute and delayedContact with dust can cause mechanical irritation or dry the skin. Dust contact with the eyes can lead to mechanical irrita No special precautions are necessary for first aid response Treat symptomatically and supportively.		ust can cause mechanical irritation or drying of vith the eyes can lead to mechanical irritation. cautions are necessary for first aid responders.				

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Water spray Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
Unsuitable extinguishing media	:	None known.
Specific hazards during fire fighting	:	Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Exposure to combustion products may be a hazard to health.
Hazardous combustion prod- ucts	:	Carbon oxides
Specific extinguishing meth- ods	:	Use extinguishing measures that are appropriate to local cir- cumstances and the surrounding environment. Use water spray to cool unopened containers. Remove undamaged containers from fire area if it is safe to do so. Evacuate area.
Special protective equipment for fire-fighters	:	Wear self-contained breathing apparatus for firefighting if necessary. Use personal protective equipment.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protec- :	low safe handling ad	vice (see section 7) and personal
tive equipment and emer-	tective equipment re	commendations (see section 8).
gency procedures		

according to the Hazardous Products Regulations

Tricaine Mesylate

Version 3.2	Revision Date: 09/28/2024		9S Number: 34821-00011	Date of last issue: 09/30/2023 Date of first issue: 09/10/2019	
Environmental precautions		:	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.		
Methods and materials for containment and cleaning up		:	container for disp Avoid dispersal o with compressed Dust deposits sho surfaces, as these released into the Local or national disposal of this m employed in the o determine which Sections 13 and	f dust in the air (i.e., clearing dust surfaces	

SECTION 7. HANDLING AND STORAGE

Technical measures	Static electricity may accumulate and ignite suspended dust causing an explosion. Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres.	
Local/Total ventilation	Use only with adequate ventilation.	
Advice on safe handling	Do not breathe dust.	
	Handle in accordance with good industrial hygiene and safe practice, based on the results of the workplace exposure assessment	ty
	Minimize dust generation and accumulation.	
	Keep container closed when not in use.	
	Keep away from heat and sources of ignition.	
	Take precautionary measures against static discharges. Take care to prevent spills, waste and minimize release to the environment.	he
Conditions for safe storage	Keep in properly labeled containers. Store in accordance with the particular national regulations.	
Materials to avoid	Do not store with the following product types: Strong oxidizing agents	

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parame- ters / Permissible concentration	Basis
3-Ethoxycarbonylanilinium	886-86-2	TWA	70 µg/m3 (OEB 3)	Internal

metha	nesulphonate	I				
mound			Further information: Skin, DSEN			
			Wipe limit 100 µg/100 cm2 Inte	rnal		
Engin	eering measures	:	All engineering controls should be implemented by facilit design and operated in accordance with GMP principles protect products, workers, and the environment. Containment technologies suitable for controlling compo are required to control at source and to prevent migration the compound to uncontrolled areas (e.g., open-face containment devices).	to		
_			Minimize open handling.			
	onal protective equip	nent				
Respi	ratory protection	:	If adequate local exhaust ventilation is not available or exposure assessment demonstrates exposures outside recommended guidelines, use respiratory protection.	the		
	ter type protection	:	Particulates type			
Ма	aterial	:	Chemical-resistant gloves			
	marks rotection	:	Consider double gloving. Wear safety glasses with side shields or goggles. If the work environment or activity involves dusty condition mists or aerosols, wear the appropriate goggles. Wear a faceshield or other full face protection if there is a potential for direct contact to the face with dusts, mists, or aerosols.	а		
Skin a	and body protection	:	Work uniform or laboratory coat. Additional body garments should be used based upon th task being performed (e.g., sleevelets, apron, gauntlets, disposable suits) to avoid exposed skin surfaces. Use appropriate degowning techniques to remove poten contaminated clothing.			
Hygie	ne measures	:	If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use. The effective operation of a facility should include review engineering controls, proper personal protective equipment appropriate degowning and decontamination procedures industrial hygiene monitoring, medical surveillance and t use of administrative controls.	v of ent, ۶,

Information on likely routes of exposure

Inhalation Skin contact Ingestion Eye contact

Acute toxicity

Not classified based on available information.

Product:

Acute oral toxicity

: Acute toxicity estimate: > 2,000 mg/kg Method: Calculation method

Components:

3-Ethoxycarbonylanilinium methanesulphonate:

Acute oral toxicity : LD50 (Rat): 5,200 mg/kg

LD50 (Mouse): 2,400 mg/kg

LD50 (Dog): 4,000 mg/kg

Skin corrosion/irritation

Not classified based on available information.

Serious eye damage/eye irritation

Not classified based on available information.

Respiratory or skin sensitization

Skin sensitization

Not classified based on available information.

Respiratory sensitization

Not classified based on available information.

Germ cell mutagenicity

Not classified based on available information.

Components:

3-Ethoxycarbonylanilinium methanesulphonate:

Genotoxicity in vitro	:	Test Type: Bacterial reverse mutation assay (AMES) Test system: Salmonella typhimurium Result: negative
Germ cell mutagenicity - Assessment	:	Weight of evidence does not support classification as a germ cell mutagen.

Carcinogenicity

Not classified based on available information.

Reproductive toxicity

Not classified based on available information.

Components:

3-Ethoxycarbonylanilinium methanesulphonate:

Reproductive toxicity - As- : Weight of evidence does not support classification for reproductive toxicity

STOT-single exposure

Not classified based on available information.

Components:

3-Ethoxycarbonylanilinium methanesulphonate:

:

Assessment

The substance or mixture is not classified as specific target organ toxicant, single exposure.

STOT-repeated exposure

Not classified based on available information.

Aspiration toxicity

Not classified based on available information.

Experience with human exposure
